SUMMARY

B.Tech Information Technology student focused on Full Stack Development, SaaS products, and AI-powered web applications. Experienced in React.js, Node.js, MongoDB, Firebase, REST APIs, and modern web development through multiple deployed projects.

EDUCATION

Anna University BIT Campus, Trichy <i>Bachelor of Technology in Information Technology</i>	2023 – 2027
De Britto Hr. Sec. School, Devakottai <i>Higher Secondary Education (12th Standard) – 91%</i>	2021 – 2023

PROJECTS

Instagram Toolkit Platform	2026 – Present
-----------------------------------	----------------

- Built a SaaS platform featuring AI-powered caption generation, hashtag generation, bio creation, and reel idea generation for content creators.
- Integrated secure payment gateway and modern responsive UI for premium feature access
- Focused on automation, creator productivity, and user engagement
- **Tech Stack:** React.js, Node.js, MongoDB, Express.js, Razorpay
- **Live Link:** instagram-growth-toolkit.vercel.app
- **Github:** github.com/deepanxsasuke/instagramGrowthToolkit

Barber Shop Booking System	2026
-----------------------------------	------

- Designed and developed a barber appointment booking platform inspired by Tamil Nadu local barber shop workflow
- Developed a full-stack appointment management system with real-time slot booking and WhatsApp notifications
- Focused on responsive design, simplicity, and fast booking experience
- **Tech Stack:** React.js, Next.js, Whatsapp Integration, Vercel
- **Live Link:** barbershop-sooty-nine.vercel.app
- **Github:** github.com/deepanxsasuke/Barbershop-Booking-System

SmartKid Educational Game	2026
----------------------------------	------

- Created an educational game for kids using Phaser.js and converted it into APK format
- Designed interactive gameplay focused on learning and engagement for children
- Implemented animations, responsive interfaces, and game logic
- **Tech Stack:** React.js, Phaser.js, JavaScript, HTML5, CSS3, Vercel
- **Live Link:** kids-educational-game-seven.vercel.app
- **Github:** github.com/deepanxsasuke/KIDS-EDUCATIONAL-GAME

AuraAnime Wallpaper Website	2026
------------------------------------	------

- Developed a modern anime wallpaper platform with optimized image loading and responsive UI
- Designed premium frontend experience with category filtering and mobile-friendly layout
- Improved website performance and user experience using optimized asset delivery
- **Tech Stack:** React.js, JavaScript, Tailwind CSS, Firebase, Cloudinary Vercel
- **Live Link:** auraanime.vercel.app
- **Github:** github.com/deepanxsasuke/AuraAnime-Wallpaper

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Java

Frontend: React.js, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js

Database: MongoDB, Firebase, MySQL

Tools & Platforms: GitHub, Vercel, Figma, Canva, VS Code, Cloudinary

Other Skills: UI/UX Design, REST APIs, Payment Gateway Integration, Web Deployment, AI Tools Integration

ACHIEVEMENTS

Real-World Product Development

- Successfully built and deployed multiple production-level web applications and digital products
- Experienced in converting ideas into functional scalable products independently
- Strong focus on modern UI design, automation, and user-centered product development
- Demonstrated ability to independently manage full product lifecycle from design to deployment

Academic & Extracurricular

- Scored 91% in Higher Secondary Education (12th Standard), demonstrating strong academic foundation
- Actively participated in college-level technical events and coding competitions
- Consistently self-learning emerging technologies to stay ahead of industry trends

LEARNING

Self-Directed Technical Learning

- Completed hands-on courses in React.js, Node.js, and MongoDB through online platforms
- Studied REST API design principles, authentication strategies (JWT, OAuth), and payment gateway integration
- Explored AI tools and APIs including OpenAI and integration patterns for web products
- Continuously practicing UI/UX best practices using Figma for prototyping and Tailwind CSS for implementation

ADDITIONAL SKILLS & INTERESTS

Full Stack Development & SaaS Product Building

- Built and deployed multiple full-stack web applications using React.js, Node.js, MongoDB, and Firebase
- Experienced in developing SaaS products from idea, design, development, testing, and deployment
- Passionate about building AI-powered tools, automation platforms, and scalable web applications
- Interested in Software Engineering, Product Development, Startup Ecosystems, and Modern Web Technologies

Open Source & Collaboration

- Maintain personal GitHub repositories showcasing projects with documentation and clean commit history
- Familiar with Git workflows including branching, merging, pull requests, and version management
- Enthusiastic about contributing to open-source projects and collaborative development environments

LANGUAGES

Tamil: Native

English: Basic Working Proficiency
